

TRACK DIAGRAM FOR G.N. HI-LINE v3 (MARIA PASS 4)

Route by Michael Stephan

Diagram by Craig Kawahara

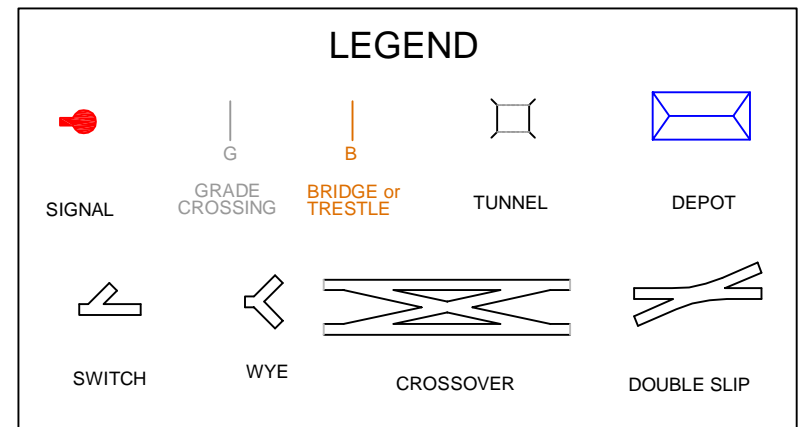

Red lines denote track alignments.

This diagram depicts the route of the G.N. Hi-Line v3 (Marias Pass 4) route for Microsoft Train Simulator. While the route does not include mileposts, I have included them for your reference. There is no scale and spacing varies depending on the number of features in the area. Grade crossings, bridges, etc., are for reference. They are not in their true milepost locations. It's main purpose is to serve as a guide to locate station and siding names. Milepost values are a mix of timetable data and values derived from MSTs's track monitor.

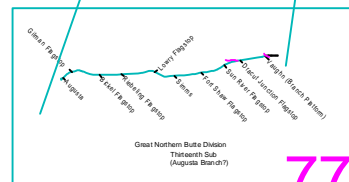

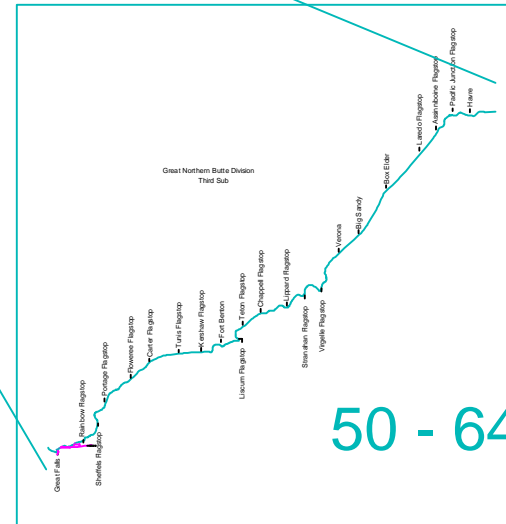

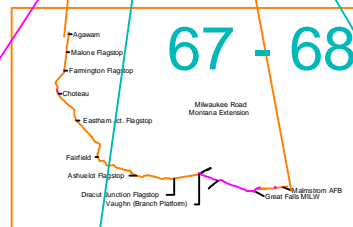

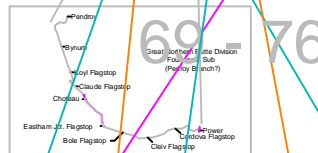

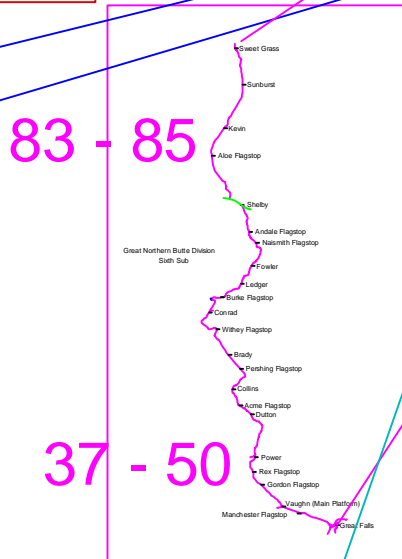

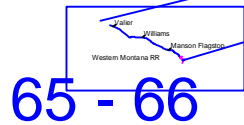

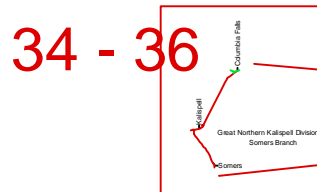

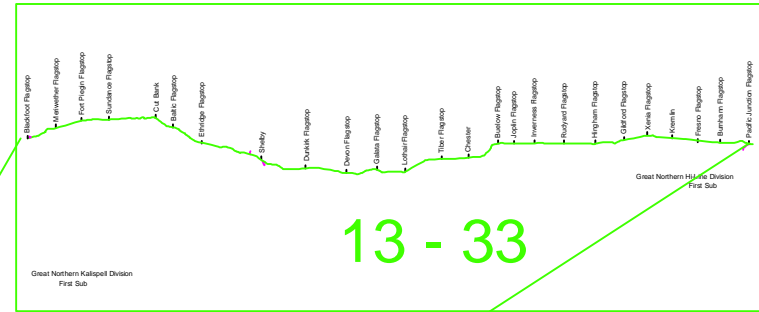

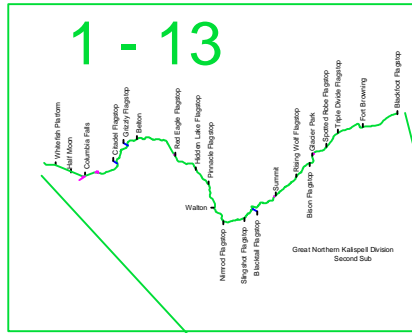

Special THANK's to Michael Stephan for his assistance and route.

Track Ownership
